Madhav M Nair

Backend Developer

✉ madhavnair700@gmail.com   ☎ +91 8547758202   🌐 madhavdotjs.netlify.app

I am studying at Presidency University, pusuing BCA. I am a dedicated software developer with extensive experience in Node.js, having started in 2019. My professional journey includes collaborating with a team of developers on a Discord automation bot (2021 - present), where I worked on implementing user security and API management. My passion for web development led me to specialize in the MERN stack and PostgreSQL, areas that I have continued to explore since my high school days. I believe in putting maximum effort in everything I do, driven by the principle that hard work precedes success.

SKILLS

Languages	Frameworks	Databases	Cloud Platforms	Spoken Languages
• JavaScript	• MERN Stack	• PostgreSQL	• AWS	• English
• TypeScript	• Node.js	• MySQL	• MS Azure	• Hindi
• HTML	• React.js	• MongoDB	• Cloudfare	• Malayalam
